The Future of Medicine 

## About RUSSIA

Russia is an amazing country with a long history, traditions, rich and diverse culture. Russia is one of the three most leading countries, and Russian education is considered one of the best in the world. Every year thousands of international aspirants from all over the world enter Russian universities. Russia is known for its cold climate. It is a land of superlatives. By far the world's largest country, it covers nearly twice the territory of Canada, the second largest. It extends across the whole of northern Asia and the eastern third of Europe, spanning 11 time zones and incorporating a great range of environments and landforms, from deserts to semiarid steppes to deep forests and Arctic tundra. Russia contains Europe's longest river, the Volga, and its largest lake, Ladoga. Russia also is home to the world's deepest lake, Baikal, and the country recorded the world's lowest temperature outside the North and South poles.

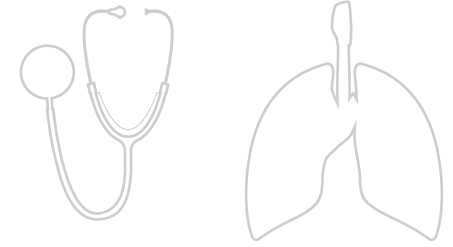

## Why Choose RUSSIA?

According to the Organisation for Economic Cooperation and Development (OECD), Russia has the most educated population in the world, outperforming Canada, Japan, Israel and the USA. More than **200,000** people from **168** countries come to study at Russian universities. There are a lot of advantages to study in Russia, here are just a few:

- Top-class degree recognised world-wide
- A diverse range of study opportunity
- Medium of study is English
- Affordable tuition fees
- Affordable cost of living
- Safe country for Indian students to live in
- Learn a language which can open many doors
- Live in a diverse country in both Europe and Asia

# About UNIVERSITY

Today, SamSMU has built a comprehensive system of multilevel continuous training of specialists. They introduced advanced teaching technologies, a clear organization of various types of university activities, as well as well functioning mechanisms for practicing practical skills - all these factors make an important contribution to strengthening the position of our university at the Russian and international levels.

At present, Samara State Medical University is a genuine university complex, providing students with the widest opportunities for highquality training. Our university is a tradition multiplied by search, innovation, initiative, one of the largest medical universities in the country.

The high rank of the University of Samara State Medical University is confirmed by a wide range of areas of educational and scientific activities.

High scientific potential is determined by 9 own research institutes: Institute of Experimental Medicine and Biotechnology; Research Institute of Hygiene and Human Ecology ; Research Institute of Eye Diseases; Research Institute of Haematology, Transfusiology and Intensive Care; Research Institute of Restorative Medicine and Rehabilitation; Research Institute of Cardiology.

## The Structure of The University includes:

- 8 Education Institutes and 78 Departments
- 7000 of Students, Residents, Postgraduates
- Dental Institute
- Institute for Preventive Medicine
- Institute of Nursing Education
- Institute of Professional Education
- Institute for Innovative Development
- Institute for Digital Development

Samara State Medical University with a medical department was founded in January 1st, 1919. In 1930 Samara Medical Institute was opened (known as Kuibyshev Medical Institute later). In July 1993 the Institute was reorganized into Samara State Medical University.

Today Samara State Medical University is one of the largest and well-known medical universities in Russia.

RESEARCH AND INNOVATION

# Technological COMPETENCIES

## Virtual Reality

7 project in the field of medical rehabilitation, education, virtual, tours.

## Neural Networks

2 projects in the field of diagnostic medicine.

## BCI (Brain Computer Interface)

6 projects in the field of rehabilitation and diagnostics.

## High precision 3D-modeling

Over 10 projects in the field of diagnostic medicine, rehabilitation, surgery, education, virtual tours.

## Augmented Reality

6 projects in the field of surgery specialized education, tours accompaniment.

## Simulation technologies

6 project in the field of medical education, practical medicine.

## Big Data

2 project in the field of diagnostic medicine.

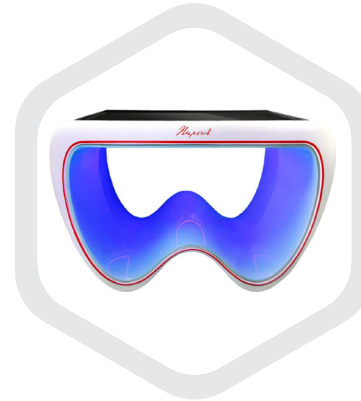

## Lab-on-chip

5 projects (in development) in the field of diagnostic medicine.

# Innovation DEVELOPMENTS

## ANATOMIC TABLE "PIRGOV"

Interactive Anatomy Visualization Table  
Hardware-software complex for virtual work with a three-dimensional model of the human body.

## AUTOPLAN

Preoperative planning, intraoperative localization of anatomical structures, monitoring the result of surgical treatment.

## PRAXIS VR

The interaction of the scientific and pedagogical community to increase the effectiveness of the training of medical person.

## REVI VR

VR-system for passive rehabilitation of patients with lower limb motor function disorder.

## HOSTEL FACILITY

Dedicated hostel facilities are provided exclusively for Indian students. Separate hostel facilities are available for boys and girls with CCTV Surveillance. In both hostels, our Indian staff are assigned for the sole purpose of monitoring and taking care of students. Premium hostels are also available. Separate kitchen for Indian pure vegetarian food prepared by our own Indian cooks.

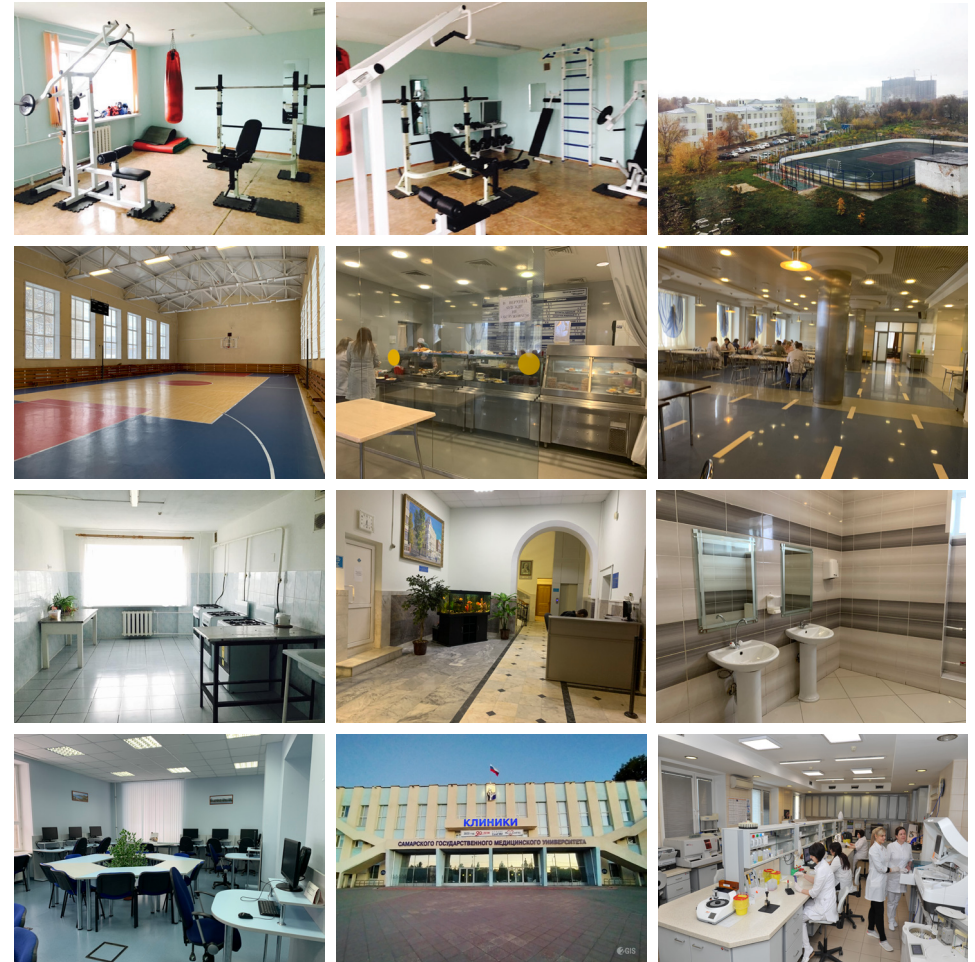

## AFFILIATED HOSPITAL

One of the most important reasons for the success of Indian students, who have studied and graduated at Samara State Medical University has vast knowledge and practical experience they gain through clinical exposure in their final few semesters. SamSMU students gain immense clinical practice because of having number of highly accredited associate hospitals. The combined bed strength of the hospital is over 1015.

- 1015 In-Patient Beds
- 57 Specialized Branches
- 60 Professions
- 24 Clinical Departments
- 25K Patients Medical Care Annually
- 16.5K Operation Annually

Pediatrics

We as FMGE Coaching institute, have trained over 5000 medicos into world-class doctors. At Arise we have an excellent support staff with good and experienced national-level FMGE faculty group who can teach the subject in a simplified manner that can be easily comprehended by the FMGE Students. ARISE Medical Academy, from inception, has been striving to assist the medical professionals and students who pursue MBBS Abroad. In gaining a comprehensive understanding of the medical education and mastering it through an explained, live interactive classes for FMGE / MCI Screening exam. We teach for various exams like FMGE / MCI screening exam, USMLE and MBBS undergraduate.

## WE OFFER USMLE MEDICAL CLERKSHIP

The Fellowship Program consists of five scholarship programs that offer tailored financial support. Scholarships are granted to students and young professionals. Our fellowship is designed to stimulate or sustain interest in research in tropical infectious diseases, this unique fellowship provides funding for physician-scientists to conduct research focused on infectious diseases of low and low-middle income countries.

## USA Medical Fellowships

USA Medical Fellowship for Current Medical Students by SAMARA STATE MEDICAL UNIVERSITY.

These fellowships for current medical students offer opportunities to do research and get hands-on experience beyond what medical school offers. There are opportunities for advocacy training, global health study, summer research, and unique rotations. There are also international opportunities in USA. If one of these sounds like a fit for you, be sure to bookmark it for you at Samara University officials.

This is a unique position for a physician-in-training student to spend some time augmenting their formal medical training with the opportunity to delve deeply into critical issues affecting access to affordable, quality healthcare, global health equity, diversity in the healthcare workforce, and medical professionalism. The objectives of the fellowship include learning and refining the fellow's skills in grassroots organizing, leadership development, strategic planning, and advocacy.

## General
